PROFESSIONAL SUMMARY

Product-focused **Data / Product Analyst** with expertise in **SQL, Python, Power BI, and Excel**. Skilled in analyzing **user behavior, product performance, and business metrics** to drive data-informed product decisions. Experienced in **A/B testing, funnel analysis, KPI tracking, and dashboarding** to improve user engagement, retention, and revenue growth.

TECHNICAL SKILLS

Product Analytics:	User Behavior Analysis, Funnel Analysis, Cohort Analysis, A/B Testing, Retention Analysis, KPI Tracking
Programming:	Python (Pandas, NumPy), SQL (Joins, CTEs, Window Functions), Basic R
Data Visualization:	Power BI, Dashboarding, Matplotlib, Seaborn
Tools:	Excel, Google Sheets, Jupyter Notebook, GitHub
Concepts:	Product Metrics (DAU, MAU, Retention, Churn), ETL, Data Modeling, Business Intelligence

PROFESSIONAL EXPERIENCE

Research Analyst Associate 2026
Learners Point Academy, Bangalore

- Analyzed **12,000+ user and operational data records** to identify patterns in user engagement and product usage.
- Performed **data cleaning, transformation, and validation**, improving data accuracy by **25%** for better product insights.
- Built **interactive dashboards** in Power BI to track key product metrics (KPIs), reducing reporting time by **35%**.
- Conducted **trend and cohort analysis** to identify user retention patterns and behavioral insights.
- Wrote optimized SQL queries to extract product-related insights, improving reporting efficiency.
- Collaborated with stakeholders to translate business problems into **data-driven product decisions**.

PRODUCT ANALYTICS PROJECTS

Vendor & Inventory Performance Analysis

🌐 github.com/nikitasharma-data27/Vendor-Analysis

- Analyzed vendor and inventory datasets to identify inefficiencies impacting product availability.
- Performed **trend analysis and KPI tracking** to optimize procurement and inventory decisions.
- Identified **15% cost reduction opportunities**, improving overall product supply efficiency.
- Built dashboards to monitor performance metrics and support strategic product decisions.

Online Retail Product Analysis

🌐 github.com/nikitasharma-data27/sql-python-retail-analysis

- Analyzed **customer behavior and product performance** using SQL and Python.
- Conducted **funnel and cohort analysis** to evaluate conversion and retention metrics.
- Identified top-performing product categories contributing to **30% revenue**.
- Generated insights to improve product positioning and user engagement.

Patient Analytics Dashboard (Product Perspective)

🌐 github.com/nikitasharma-data27/Patient-Waiting-List-Power-BI

- Built a Power BI dashboard analyzing **user flow and system performance** across departments.
- Used **DAX and ETL techniques** to model data for product-level insights.
- Improved operational efficiency by **40%** through data-driven insights.
- Tracked KPIs to optimize service delivery and user experience.

EDUCATION

Post Graduate Diploma in Applied Statistics (Ongoing)

Indira Gandhi National Open University

2026

Bachelor of Science (Hons) Chemistry

University of Delhi

2024

CERTIFICATIONS

- Google Data Analytics Professional Certificate – Coursera
- Deloitte Data Analytics Virtual Experience – Forage
